“ Dr. Marti Coleman was a dear friend of mine. She made a lasting and significant impact on me when I was a brand new veterinarian. She mentored me, supported me through difficult cases, and always lifted my spirits. Marti had a big heart. Her work improved the wellbeing of so many animals and the people who cared for them. She was a true friend who enriched many lives. Marti will be greatly missed.

“ Dr. Coleman was an amazing boss and an awesome person. I worked for her on weekends when she did clinics at Pet-smarts in El Paso! I always think of her when I have to take my pets to the vet. I moved away from El Paso but she has never been off my mind. She will be very missed in my heart!

“ I have worked Marti for the majority of my veterinary career. She was the kindest most caring person I have ever had the pleasure of knowing and having her a part of my life. No one cared for animals more than her and she gave her life to caring for anyone any animal that needed help money was never an object for her. She was funny, fun, compassionate and will be missed by everyone whose lives she touched. Rest in peace my friend

“ I worked with Dr Coleman my whole career of veterinary medicine and I can say she was one of the best teachers and friends I ever made. She was a true angel walking this planet. I wouldn't have made it as far in my life without her and I will miss her every day.

“ Dr Coleman was such an amazing woman and friend. She had one of the biggest hearts I have ever known . She loved life, loved being a vet. She was one of the most compassionate people when it came to animals and their care. We had many laughs working together and at my groom shop. i'm sure there's a lot of people that didn't know that her and her best friend Steph would collect blankets, toys, and take these gifts to the tribal lands of the Native Americans and while there donating, she would also vaccinate many dogs for free. I will miss her dearly, but I know she's flying high with the angels and little spirit and all her other fur babies. She's in a better place, but this physical world has lost a precious person. I love you, Doc. I will see you one day!!!!

“ *Marti was an awesome friend. She always made me laugh. We had many a great time together practicing our profession, veterinary medicine. She had the biggest, loving heart I have ever seen. All creatures were special to her, and she gave 180% to each one. I loved her dearly, and know she is safe in the LORD'S ARMS. We will meet again. Take care of GOD'S creatures Marti.*
